

Ray Allen Shooting

Frame 1

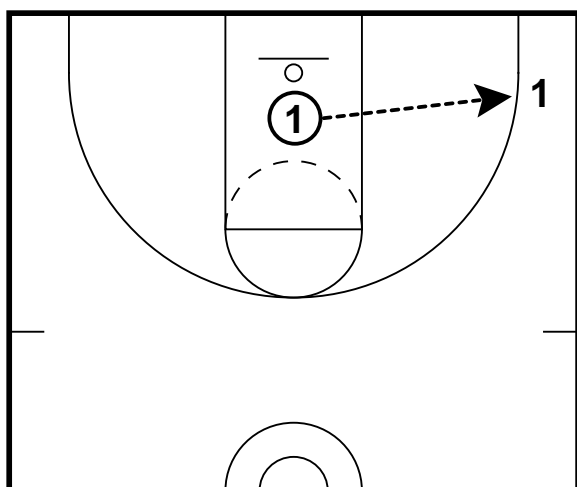

1 shooter & 1 passer: The shooter has 5 spots in 5 locations.

Frame 2

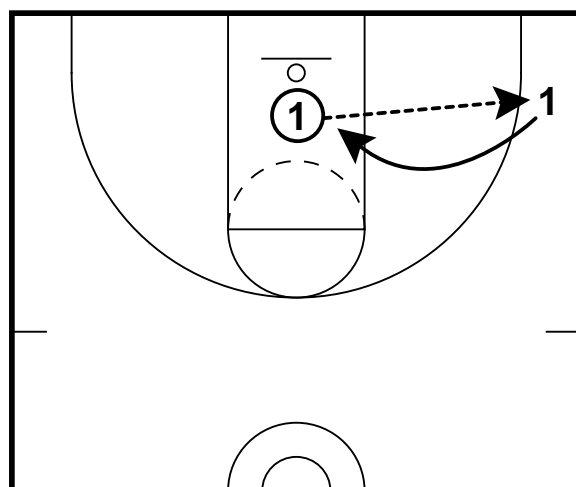

The shooter has to hit from the closest spot to move back to the next spot. Every made shot he moves back 1 spot. Every missed shot he starts back at the rim from that location.

Frame 3

The shooter has to make 5 consecutive shots in order to move to the new location. If the shooter misses any of those shots he must start back at the first spot.

Frame 4

Once the shooter has consecutively hit 5 shots he moves to the new location. The player has 5 minutes to try to complete all 5 consecutive shots from all 5 locations. The shooter does not move back locations on misses, just spots.
Scoring: Number of locations finishes or time he finishes in.
